

The South Indian Education Society

The South Indian Education Society needs a **canteen contractor** for its **academic campus at Sector V, Nerul, Navi Mumbai**. The campus houses ten institutions and has a student enrolment of 9000 and staff strength of 400. A separate building houses the canteen. While the Society requires a reasonable and affordable tariff for the various items served by the canteen, it offers attractive terms to ensure a reasonable return for the service provider. A graduated incentive scheme based on the diminishing frequency of complaints is a stimulus that would attract the prospective applicants. Interested contractors need to fill in the application form uploaded in the website: www.siesedu.net and forward the duly completed application form only by **email to : siesvs@gmail.com** within **10 days** hereof.
